Syed,

This is exactly the information, in the best format, that was needed. I will share it with Charles and Randy for their awareness.

Thanks for your great work and quick responsiveness.

UPDATES

1. **Raw data-** Total permits including POTWS, non POTWS, and Federal permits (effective, admin continued, and expired permits) in the effected county are **3367**

2. **Expired Permits:** Removed from the data base are **447**

3. **Remaining permits (3367 – 447) = 2920**

- Following are the details of After removing expired permits, there are total 2920 permits (Non POTWs and POTWs) in all effected thirteen (13) counties
 - a) POTWs 394
 - b) NON-POTWs 2521
 - c) Federal Permits 5

2920

Syed et. al.,

Please see observations/question below:

1. There seems to be some counties on the list that were not on the disaster declaration. Please remove from list.
2. Remove expired permits (it's o.k. to keep administratively continued permitted facilities)
3. Please sort list by county, i.e., we need the facilities grouped by county.
4. Should we include non-POTWs? Please advise.

All,

At this time no formal request for information from the EPA R6 Emergency Operations Center (EOC). However, asking that you remain available for any potential informational request during the next couple of days.

Mark,

Please tap into your staff and Syed to the extent you need to. I need an ICIS data pull and count, sorted and listed by county, of all the wastewater facilities within the declared counties by 3 p.m. today. Also, please put your related staff on the alert for potential additional information requests over the next few days and possibly through the weekend.

List of counties: Brazoria, Chambers, Galveston, Hardin, Harris, Jasper, Jefferson, Liberty, Matagorda, Montgomery, Newton, Orange and San Jacinto.
